RUSSIANS FIRE ON THE GERMANS

While the telegraph and cable offices of the two countries directly affected by the present European war crises. Austria and Servia, were so closely censored throughout yesterday as to be almost valueless for the trans mission of war news, the following general summary of developments o the day was made possible through sporadic messages from more acces sible European points, and covers the chief developments of the day:

Fighting is in progress on Danube, but all details are sup-

A cossack patrol fired across the Russian border yesterday at a party

The kalser arrived at Potsdam and The British fleet of dreadnoughts was recalled last night by wireless to Portsmouth and was occupied all night in coaling and provisioning.

Berlin reported late last night that the Austrian army had invaded Servia, crossing the Danube fifty miles

FIGHT ON DANUBE, BUT NO DETAILS

London July 27.-An engagement between Austrians and Servians is reported to have occurred on the Danube but no details are available. As far as the censorship permits to be known Austria has not yet opened her mill-

tary operations.

Meanwhile diplomacy is proceeding with energy along two separate lines to avert the war if possible, and, if that is impossible, to localize the con-First, Sir Edward Grey, the British secretary of state for foreign affairs, has proposed to the powers a plan for joint mediation which, it is stated, France and Italy already have accepted. Germany has not yet replied, and her acceptance is regarded as doubtful.

Sir Edward Grey explained in the house of co mons his idea, which was that the four powers, Great Britain, France, Germany and Italy, co-operate in an endeavor to arrange the dispute between Austria and Servia on the basis of Servia's reply to the Austrian ultimatum. This reply he regarded as the foundation on which friendly and impartial powers should be able to arrange an acceptable settlement

ON VOCATIONAL

Kirksville, Mo., July 24. Editor Standard: Agreeable to your quest that I should send a greeting. The Standard, I take pleasure in writing a few lines on vocational education as I have observed it in some of the rural schools of Missouri.

So important is the work of preparing rural teachers that a model office of collector of customs for school, designed by Dr John R, Kirk Utah and Nevada be transferred to of the state normal, is conducted in connection with this great institution of learning. This model school is an important

who spend much of their time in country schools While it is only a one-room building planned to accommodate thirty students, including eight grades, it exemplifies the simplest and, yet the most complete, practical and economical architecture known anywhere for

It is entirely separate from the normal building, but is built on the same campus, on the southeast corner of

the square.
The children are transported from their homes in a covered wagon, coming from three to four miles. After arriving, they are greeted by teacher of the Columbia university

It would be impossible in a limited to describe the opportunities afforded the students who are in at tendance

The building is apparently faultless Light in abundance, adjustable seats on movable platforms, telephone on teacher's desk, bookcases, stereoptican and screen to Illustrate essons in geography, history, etc., toilet rooms, drinking fountains and many other practical things too numerable to mention, are in evidence. In the attic, which is lighted by gable and roof light, may be seen manual training and domestic science equipment, for the use of the boys

anc girls in the upper grades.

The basement is divided into eight compartments, including room, coal bin, bulb or plant room. dark room for children's experiments in photography, laundry room, play room, tank room and engine room. School gardening is one of the in-Here the boys teresting features and girls are taught to do by doing, and they are led to see that while the earth furnishes the materials which man needs, work leads to the

supplying of his necessities. Another most interesting school visted that of the Porter school, a few miles north of Kirksville. It is in charge of Mrs. Harvey, formerly of the state normal school of this city. She seems to have leaned close to the heart of nature, for everything shout her surroundings suggests work in agriculture, school gardening and cignity of labor. The boys and girls are being educated to stay on the farm, to help one another and make the community better. They are be-July 28 -Serious rioting ing taught by example and precept. Only two years ago this school was

considered the poorest in the county places, had fallen to the floor, an old of the room and altogether the room a transition took place as soon as Mrs. Harvery came to the school! First there was an awakening in community life because of the enthusiasm and earnestness of the teacher. Scrubbing, sterilizing, mending,

painting, general repairing and a thorcugh renovation were soon in prog-ress. A Farmers club was organized, and through this organization, the building was lifted, the basement dug and concreted, and a furnace put in by the citizens, all working together for the betterment of school conditions; the teacher enthusing them with an impetus for higher ideals in educational purposes.

She, herself, gave the school a drinking fountain and water system. n place of the unsanitary bucket and dipper so much in evidence in the country schools. Prior to her coming, the school had not had a community meeting for ten years. Now it has become a center of social activities. Once a week the Farmers' club meets in the school basement, while the Farm Womans' club, sisters and daughters, meet in the school room Discussions on parliamentary law, neighborhood welfare, farm condipose The senior officer in command tions, current events and other topics of them was Major Haig, but he de of interest take place at these meet nies that he gave the order to fire. ings. The good old fashioned picnics Thousands visited the scene of the are not forgotten. "These women in shooting. None of the bullet marks the neighborhood know how to cook appear to be more than four or five and keep house," said Mrs. Harvey "and they will teach their daughters. where Mrs. Duffy was shot dead as I want to teach other things. her breast near the heart. She suffered intense pain and fainted twice before a physician reached her side. The point of the needle, which was about an inch long, was soon located and extracted and the little girl is now getting along nicely.

DEMOCRATIC PRIMARIES AUG. 4 Provo. July 27—Democratic pri-maries for Provo precinct to elect del-egates to the county convention. August 11, have been called to meet on August 4 at 8 p. m. in the various wards of the city as follows: First ward Maeser school; Second ward Central school; Third, ward, Franklin school; Fourth ward, Timpanogos school; Fifth ward, Parker school.

NEVADA MAN MAY BE

CUSTOMS COLLECTOR Salt Lake. July 28.-Local Democrats are somewhat fearful lest the Nevada and that a Nevada man be appointed to the place made vacant by the death of J. J. Greenwell.

Senator Charles S. Thomas of Colofactor in the preparation of teachers rado has written local Democrats that Senators Francis G. Newlands and Key Pittman were seeking to have a Nevada candidate appointed for the He points out that Nevada place. went Democratic two years ago and is represented in Washington by two Democratic senators and a Democratic congressman. Senator Newlands is a candidate for re-election, and it is probable that he would like to secure for the people of his state as many federal offices as possible.

T. F. Thomas, chairman of the Democratic county committee, is the only Utah candidate whose name has been presented to the secretary of the treasury. Mr. Thomas was indorsed for the place by the Democratic state committee and by a number of other prominent Democrats. Recently it is understood the question of his loy alty to his party was raised, but leaders of the Democratic party in Utah say, that so far as they know, no definite charges against him have been filed either here or in Wash-

DR. H. M. ROWE BACK

Dr. and Mrs. H. M. Rowe have returned from the Rowe ranch at Gun nison, Colorado, where they passed

the last two months.

Dr. Rowe is one of the largest wool growers in that part of Colorado and this year sheared 10,000 sheep. In speaking of the condition of the wool industry, he said that the sheep raisers this year have suffered heavy financial losses through the operation of the Underwood tariff law, his personal loss eing 10 cents on every head of sheep that was sheared. This loss was calculated on the argument that with a protective tariff the price of wool would have been between 2 and 28 cents a pound instead of 17 3-4 cents as at present.

The withdrawing of range land by the government, for agricultural and mining purposes, has also been a fac-tor in the cutting down of the profits of the wool industry this year, he

Government Inspected Meats Are Cheaper

Strange, Is It Not?

You might expect that because of thousands of dollars of expenses attached to Government Inspection, on account of livestock condemned and sanitary regulations to be complied with, that Government Inspected meats would be higher, but no.

It is all because that we make up all such losses by properly utilizing all by-products, such as blood, fertilizer, bones, horns, hoofs, casings, Neatsfoot oil, tallow, etc., and taking care of such by-products in a way that we realize the highest value out of them, by using economical and labor-saving machinery, by employing expert help to take off hides and pelts, so that their full value is retained, in fact by utilizing everything and wasting nothing.

There is no question but what our profits would be much greater did we not have Government Inspection, but is it humane to profit on the unsuspecting public by deliberately carrying disease and misery into their homes through diseased, dirty and unwholesome meats? You are cordially invited to inspect our plant at any time.

Watch for the Government Inspection Stamp on Your Meats Ogden Packing & Provision Co.
